A Best Practices Enterprises Company

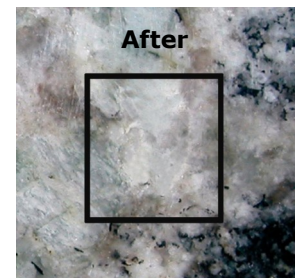

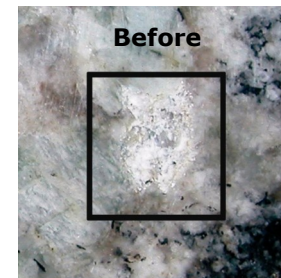

Advanced, Hi-Tech Solutions for Surface Repair

Natural Stone Repair Program

Revolutionary Light-Curing Clear Acrylic Technology

Repair chips, nicks & gouges in your Granite, Marble & Travertine in minutes with our fill kits!

Your Clear Solution For Natural Stone Repair

Clear Light-Curing Acrylic (LCA) Advantages:

- ✓ Extremely Simple-To-Use
- ✓ Curing/Drying In Seconds
- ✓ Virtually Invisible Repair—Allows Natural Stone Color Pattern To Show Through
- ✓ Very Low VOCs
- ✓ Superior Adhesion & Strength
- ✓ UV Resistant—Suitable For Both Indoor & Outdoor Use
- ✓ Waterproof
- ✓ Household Cleaning Chemical Resistant
- ✓ Can Be Cleaned & Polished With No Deterioration Of Repair
- ✓ Extreme Durability—You Will Only Need To Repair It Once And Forget It

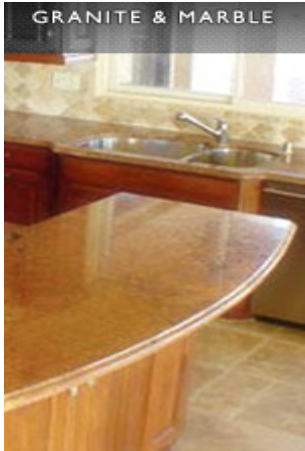

Flowable Gel or Paste?

Depending upon your repair application needs, we have the appropriate "clear" solution:

Flowable Gel: Our 1-gm clear gel syringes allow you to apply the LCA material in small, precise areas while the gel finds all the nooks and crannies and fills in the damage with little effort.

Paste: The Clear LCA paste material is available in 3-gm syringes and is perfect for larger and/or multiple jobs and repairs on vertical surfaces (backsplashes, bull nose edges of countertops, spas, shower surrounds, etc.).

Granite, Marble, Quartz, Travertine & Slate Repair

Attention:

- **Fabricators**
- **Installers**
- **Repair Pros**
- **Homeowners**

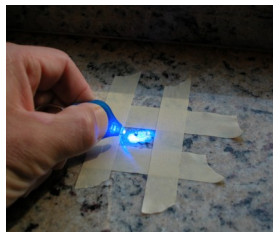

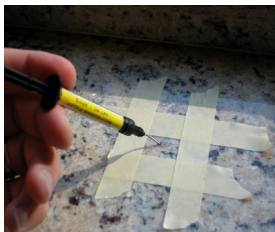

You don't have to waste your valuable time using potentially hazardous, sloppy, temporary epoxies, resins, superglues or other inferior repair

materials to fix damage to your expensive granite, marble, travertine or quartz surface.

Now, the perfect affordable solution to all your natural stone surface repair needs is available to you from ProCaliber Products:
